

DE0575/DI0500

MAGNUM twin-wall pipes are connected by sockets with watertight seals, and are designed for non-pressurised foul water, rainwater or industrial drainage systems.

Nominal diameter DN/OD (mm)	575
External diameter min (mm)	571.6
External diameter max (mm)	576.7
Inside diameter DN/ID min (mm)	490
Thickness e4 min (mm)	≥3
Thickness e5 min (mm)	≥3
Ring Stiffness category (SN)	≥8
Standard manufactured colour (external/internal)	Black / blue
MAGNUM SGF DN/ID 500 Date Heure PIIP/b n. 386 NF EN 13476 Type B PE-HD SN 8 U	Labelling
Usable length (m)	5.92
Overall length (m)	6.11
Inner/outer wall material	PE-HD
